

DR. NADER SAAB

Dr. Nader Saab is a renowned Lebanese plastic surgeon, recognized as a pioneer in aesthetic procedures in the Middle East. He completed his medical studies in Beirut and further specialized in plastic and reconstructive surgery in Paris, graduating from the Clinique du Rond-Point des Champs-Élysées.

After seven years of practice in Paris, Dr. Saab returned to Lebanon, where he established his first hospital in plastic surgery the only authorized by ministry of health in Lebanon . He operates a state-of-the-art plastic surgery hospital in New Naccache, Rabieh, Lebanon, featuring advanced surgical facilities and a comprehensive recovery center. Additionally, he has a clinic in Dubai, catering to a diverse international clientele and soon in Baghdad, the capital of Iraq where he is set to open a new hospital in plastic surgery to provide his expertise to the people of Iraq.

Dr. Saab is known for his innovative approach to cosmetic procedures, including rhinoplasty by laser in only 30 minutes, scarless rib remodeling and groundbreaking eye color change technology that allows patients to alter their eye color safely and painlessly.

Dr Nader was head of jury in many concerts including miss Europe and most competition in the middle east. He is ambassador of international human rights commission in Lebanon. Having his own range of luxury high end creams containing caviar, gold and stem cells which are made in Switzerland.

Dr. Saab's dedication to innovation and excellence has solidified his reputation as a leading figure in the field of plastic surgery in the Middle East and beyond.
